

CONFIDENCE COUNTS

Designed to boost confidence and overcome nerves, students can realise their dreams, both with their chosen career path and social situations.

Making a great first impression gives everyone a head start. Three seconds is all it takes for the other person to form an opinion from appearance and body language. First impressions are almost impossible to reverse. They set the tone for all relationships that follow.

CURRICULUM

Qualifications are important but 'soft skills' are also crucial to long-term career success.

Guest talks with Accountants, Marketing Agencies, Manufacturers and Solicitors, will give an insight into what the employer is looking for in a new recruit.

CONFIDENCE COUNTS is all about absorbing knowledge in a practical and fun environment, which can help with confidence, fortitude and presence of mind to succeed in a highly competitive business environment.
